EXPERIMENTAL TOXICOLOGY: THE BASIC ISSUES

Royal Society of Chemistry. Paperback. Book Condition: New. Paperback. 580 pages. Dimensions: 9.lin. x 6.lin. x 1.3in. Experimental Toxicology is an important text for undergraduates, post-graduates and professionals involved with studying or teaching this often controversial subject. It addresses the basic issues concerned with the practice of experimental toxicology and discusses in detail the following topics: experimental design; biochemical issues; animal husbandry; species differences; immunological issues; carcinogenesis; reproductive approaches; statistics; genetics; in vitro and molecular approaches; risk assessment; information resources; aspects...
