By Ronald Orenstein

FIREFLY BOOKS LTD, Canada, 2016. Hardback. Book Condition: New. 229 x 229 mm. Language: English . Brand New Book. There are more than 200,000 species of butterflies and moths. Many, in fact, are still uncategorized. This fascinating book reveals a rare and close up look at the odd beauty and behaviour of some of the strangest of these tiny creatures. Despite their large numbers, the world of these particularly weird insects exists largely hidden from our view. Included in the book are some of the most interesting species from North and South America, Europe, the Caribbean, Australia, New Zealand and beyond. Readers will be introduced into the world of the butterfly with images demonstrating how these paper-thin winged miracles of nature adapt and survive against all odds, which include predators, weather and humanity's wilful destruction of habitat.

Reviews

This publication will never be straightforward to get going on looking at but really fun to see. This can be for all those who state that there had not been a worth looking at. You wont really feel monotony at at any moment of your own time (that's what catalogs are for about should you request me).
